BENEFITS

The best solution for your retail outlet

The Solution comprises of a POS terminal in the frontend and material management features in the backend.

Scale up as you go

Our POS module can be modified and upgraded with other apps in a way that works best for your business. It provides seamless integration with your material management and moreover, it could be used on cloud servers.

Easy to handle

User friendly and powerful; You do not need to spend days to learning how it works. Additionally, it is based on a single system interface for frontend and backend operations.

Use on any device

Works on all devices (PCs, tablets, mobiles...), operating systems (cross platforms solution) Highly appealing UI for best user experience!

Bring the register to your customer

Take your mobile device to your customer, and accept orders anywhere in or out of your store. No need for a checkout counter! The POS can also be used in a sales van.

Works Online and Offline

You do not need to worry if there is a break in the internet connection. The VA POS works perfectly offline as well as online and will never fail you.

Track your sales and growth in real time

Detailed business reports help you analyze and gain insight into your products, orders, payments, supply chain and more. In this way you are going to be able to make better decisions about the right portfolio of products, analyze customer behaviors, seasons and more.

Use with any number of stores

VA POS is powerful solution that can handle as much stores as you need. Compare its features with the competitors and you will be amazed to find out that this is the most powerful store management tool available on the market.

All your data in one place

Your products, inventory, orders, and customers are automatically updated and backed up in the cloud.

Low maintenance cost

With VA POS there is no need to overspend for maintenance and support!

Very low administration effort

No need for technical staff even in handling multiple stores.

Pay as you go

We offer very flexible payment model that meets your business needs, while saving you money. (Pay per terminal per month)
